Maintain a smokefree indoor air policy	74%	6,365
Return to allowing smoking indoors	26%	2,192

Do you have any other thoughts or opinions related to smoking in casinos? 8,599

Do you have any other thoughts or opinions related to smoking in casinos?

I think Maintaning a section of the casino for

Have separate sections like before including for bingo

Keep smoke free....smells great noe

people there that smoke would also smoke weed. Give them a inch they take a mile

You already allow pot to be smoked as you smell it from minute you walk In. Be nice if you regulated that

I wouldn't be able to go to Potawatomi anymore if there is smoking allowed on the main casino floor, because of health issues.

No

No smoking, I go somewhere else.

should not be allowed

Do you have any other thoughts or opinions related to smoking in casinos?

Smoke in Casinos is what keeps me from going more often.

Main reason i enjoy the casino is cause i can smoke drink and gamble

Guest enjoy drinking alcohol beverages with a cigarette

No

no

For those who smoke provide and area for smokers

VAPING INSIDE- OK, SMOKING INSIDE-NOT REALLY

There should be way more areas for smokers if you do not plan on changing this back to allow smoking

Do you have any other thoughts or opinions related to smoking in casinos?

Please do not bring back smoking.

I will not be returning to Potto if indoor smoking is reestablished

Cigars should also be allowed

No

I stopped playing as much as I did do to having to go outside to smoke

more people like smoke free cause smokers arent polite about their smoking

We are so used to Wisconsin casinos being smoke free, it's always an adjustment going to Vegas or Laughlin. Even Upper Michigan remains smoke free because they put in a separate smoking room. Never smoked; hate it.

As a former employee of the casino, I strongly feel it is in everyone's best interest to maintain a smoke free environment. I enjoy going to Poto as a guest more now that it is nonsmoking.

Grew up with a change smoker (dad)

It is so incredibly nice to visit a smoke free casino that we would not regularly visit one that allows smoking but instead drive further to go to a smoke free casino.

Please keep smoking outside! It makes me sick!

I probably wouldn't go to a casino that allows smoking

The outdoor smoking areas for smokers is a great solution.

Smoke em if ya got em !

I will not visit a casino that allows smoking indoors!

Do you have any other thoughts or opinions related to smoking in casinos?

designated smoke areas are fine general casino no

I very much like that there is a designated area for smoking within the casino, this is especially helpful in the winter months which is when I visit the most.

Small percentage of the public smoke. Keep smoking outdoors, come up with ideas to keep those customers satisfied. Mostly, think of your staff, they would be breathing in second hand smoke all the time. You have enough challenges re ruining and retaining staff, big customer dissatisfier.

None

All you smell is marijuana now in Potawatomi so whats the difference? At least you dont get a contact high from cigarettes!

Will not come if smoking allowed in the gambing area

No smoking in casino. Gets on your clothes and smells terrible.

Your clothes smell your hair smells it's just disgusting

Bigger section then what you have right now thar allows smoking , but the rest of casino smoke free

It's disgusting and bothersome for trying to play next to someone that smells like an ashtray. That situation has driven me away from playing multiple times

It is very pleasant not to have smoke

I remember pre-pandemic there were specific glassed in rooms that were for smokers.

Do you have any other thoughts or opinions related to smoking in casinos?

Will not participate in one if smoking is allow.

There should be no smoking in casinos. I don't want to get any lung problems from secondhand smoke!

Please keep it smoke free!

Having to go outdoors to smoke prevents guests from staying and gambling for longer periods of time

Keep it the way you have it now , meaning certain section it's allowed indoors otherwise outside .

No smoking by the front doors, and wipe the machines off

Maybe a designated area inside with slots, that does allow smoking.

If you have a smoke free casino, offer a larger better ventilated area for smokers and vapers. The area where smoking is allowed is quite disgusting and too many people congregate up there.

No smoking in front of entrances either.

Do you have any other thoughts or opinions related to smoking in casinos?

Non smoking is a major factor

I think vaping should be allowed. These questions aren't specific enough. I can't stand cigarette smoke, but vaping is different.

It stinks, it burns the eyes, abd makes your hair and clothes smell horrendous! Terribly unhealthy.

Please don't subject employees to a smoking environment

Smoking indoors significantly reduces the time I spend in a casino.

It isn't just the smoke but the casino is cleaner as well

I may frequent more often if it were smoke free.

I think I would spend more not having to go outside to smoke...

Have both smoking and non-smoking sections. Or a room where smokers can smoke inside. Too cold in the winter.

I refuse to go to smoking casinos even if it is a special room or floor

It is a free country.

Even when no one is smoking around me, the stinky ashtrays are sitting on the machine. I used to smoke and I don't mind the smell of some smoking, but the ashtrays are gross. Some casinos have a smoking room, which would be ok if it's well ventilated.

Do you have any other thoughts or opinions related to smoking in casinos?

Better ventilation

I have never had a cigarette in my life but 2 years ago was diagnosed with COPD. I think it is better for attendees and certainly a job perk for your employees to remain smoke free. Also my clothes use to really smell of smoke from the casino and I've been coming since you first opened and we got quarters in a bucket for payouts

No

Every time we would come down to Potawatomi before the no smoking band, we had to just come home and take our clothes off and put them in the wash. It's so much better now.

No

I like the solstice area for smoking, but need more slot machines in there

I feel if you care about your staff , and patrons you will keep it smoke free.

Currently living in a Smoke-Free environment, and it is preferred by my Wife an Me.

I don't believe that going smoke free has hurt guests from visiting your establishment.

Definitely prefer to be able to smoke at least in the bingo hall

Smoking indoors anywhere is a relic of the past. Everyone else should not be subjected to secondhand smoke filling their lungs and burning their eyes.

I've LOVED having your casino be smoke free. 100 times better experience

my husband is a smoker. He prefers not tohave to go outside, but its nice that there is a heated smoking area.

I prefer a smoking and non-smoking section

Do you have any other thoughts or opinions related to smoking in casinos?

It's nice not smelling like smoke when you leave or go to your room. Also my allergies don't do good with smoke. I can't tell you enough it sure is Nice smoke free.

We believe so strongly in smoke free casino gaming, we regularly drive 2 hours to Illinois.

I understand whybyou smoke but I believe a smokee free casino is helful for those who want to cut back on smoking.

I would be okay if there's a way to have ventilation.

Hair and clothes stink

Smoke in a casino is MAJOR TURNOFF! We will not visit ones that smell of smoke. Often people smoking at slots let their cigarettes smoke drift over so ABSOLUTELY will not waste money at these type of casinos!

It stinks! I don't like going home with my hair and my clothing stinking like cigarettes! Even worse, is cigar smoke, please keep the casino smoke free

I am totally fine with smoking/vaping in designated areas.

Make the solstice lounge much bigger with better ventilation.

I can only get my family to go with me if its smoke-free. So much cleaner snd you dont smell like an ash tray when you get home. Your smoke-free policy is saving lives! For employees and customers!

Why do i as a non-smoker have to breathe their smoke with the possibility of getting cancer from 2nd hand smoke?

Do you have any other thoughts or opinions related to smoking in casinos?

Haven't seen in a drop in attendance. Please keep it smoke free, nice not smelling like smoke. Would probably limit my visits if it restarts.

People who sit at a machine who aren't playing and when you I ask if they're playing they can be extremely rude. Securzshoukd do a better job at monitoring it

I like that the main areas are smoke-free, but I think having a smoking area (as with the mezzanine) is nice for those who choose to smoke.

It is refreshing to leave the casino without smelling like smoke

No

Don't allow

You should ask the real question. How likely are you to visit if the casino is smoke free or what is most likely you spend your money at a smoke friendly casino? Or non smoke casino

Stay smoke free.

I hate when my hair and clothes smell bad because of someone next to me. I hate to leave a slot I'm playing because somebody sat next to me smoking.

Do you have any other thoughts or opinions related to smoking in casinos?

You should let me vape in peace instead of making me hide it cuz I'll do it anyways

better ventilation in tht indoor smoking area

Smoking in Casino will not stop me from going to Casino, I will simply wear my mask..

Allow cigar smoking in designated areas

I currently don't visit casinos as much as I used to, simply because smoking is not allowed inside anymore. If smoking was allowed, I would visit a few times a month.

We will not go to a casino with a smoking indoors policy

If I am playing a table game and a smoker sits down next to me, I am likely to get up and leave

Federal law no smoking inside.

Have a smoking section outdoors

I was fine with a smoking room for bingo.

I am a former smoker and now I find the cigarette smell disgusting. I feel so much better now as a non-smoker.

Designated area like now.

Do you have any other thoughts or opinions related to smoking in casinos?

I used to smoke myself for 20 yrs but sure is nice walkin into casinos now where u cant smoke inside. Thise are the ones i go too. Must be nice fur u too fir cleaning up in one spot outside an not all over the place inside. Ive seen butts on the floor an all over machines etc in the casinos that allow smoking. s

You need to do what is best for business

We visited Potawatomi pre-pandemic, and never came back solely because of how bad the indoor smoking was. It was horrendous, and we felt disgusting in the casino. The only smokefree area at the time was a small room that had none of the machines we wanted to play on. I hope all casinos go smokefree, or have small rooms dedicated to smoking rather than allowing smokers to roam freely.

As a former smoker, smoking inside is disgusting, dirty and stinky. I still have a hard time believing that people still smoke with the price of cigarettes, lol

Do NOT allow smoking at Potawatomi Milwaukee. If you do, I will NOT return.

It's a legal product

I think your casino is well ventilated for smoking. I owuld spend more time at a machine, instead of having to waste time going to the solstice lounge.

Other establishments/businesses are smokefree and so should a casino be smokefree.

I think a designated indoor place to smoke is a good alternative to forcing people to smoke outside

Do you have any other thoughts or opinions related to smoking in casinos?

PLEASE KEEP IT SMOKE FREE.. MOST OR ALL OTHER CASINOS ARE SMOKE FREE !!!

Casinos are one of the last places you can smoke inside. I have been to some that had a smokefree section for people it bothers.

Keep no smoking policy. It already smells like weed all over

I hate the smell of smoke in my hair and clothes after leaving the casino in the past.

Smoking is disgusting. If you bring back smoking, we will not be coming as much or at all and I know my friends that are all flame status will not be there either

You can't smoke indoors anywhere else. Why should casinos be different?

I think vaping is ok indoors because it doesn't stink like cigarettes.

Do you have any other thoughts or opinions related to smoking in casinos?

Please keep it non smoking!!

Probably would stop going if smoking is brought back.

I used to smoke and don't anymore. I think the casinos should stay smoke-free for the sake of their employees and patrons.

Get cancer. And take this survey

Personally I will not go very much at all if smoking is not allowed in designated areas!

The smoke is a reason I do not go often as well - the expensive food choices and limited time when they are open.

It's disgusting. Do it outside.

I don't go to the casino as much as I used to because my allergies are sensitive to the cigarette smoke, and i don't like how some people leave ashes on the slot machine buttons.

Smoking or vaping causes high blood pressure and CANCER!!!

Yes, sometimes they smoke cigars and also they blow some in your face if they want you to move

I'd be okay with having separate smoking and non-smoking areas of the casino as long as they offered the same games in each side

Do you have any other thoughts or opinions related to smoking in casinos?

Keep the smoking in a separate department

I like to not smell like smoke when I come home. My wife will know where I been

Yes. It stinks inside and the smell is on your hair and clothes. It also is detrimental to non smokers health as it has been proven that non smokers can die from second hand smoke faster than actual smokers.

I should not have to put my health in danger due to 2nd hand smoke

They can go back to non-smoking gambling sections. Personally for me i don't gamble as often post pandemic due to the no smoking in casinos. Smoking a cigarette while gambling to me is equivalent to drinking a beer @ a ball game! Some things just go hand & hand...

If your casino returns to a smoking environment, we will definitely take our business elsewhere. You cannot put your customer's health at risk for the very few that prefer to smoke.

Im for people having the right to smoke but I think the atmosphere is better smokefree

Do you have any other thoughts or opinions related to smoking in casinos?

I enjoy smoking Cigars and there was a designated area for those who prefer Cigars

Safety

Your casino is so clean and smells so good, don't bring smoke back to your building

Most casinos rely on local patrons many of whom are seniors. Smoking is risky to those with health issues. There is ample data to support this and I prefer not being near smokers. Smells linger even if folks are not nearby.

no

No

It doesnt bother me..I cut back since pandemic.so its a good thing.

Smoke outside

No

Have no smoking areas. Have smoking areas.

2nd hand smoke is not healthy for anyone keep smoking outside

Do you have any other thoughts or opinions related to smoking in casinos?

That's why I stopped coming so much. Smoke is too bad there

I cant believe anyone smokes any longer, knowing how bad it is for health as well as how costly it is.

I will most likely stop coming if smoking is allowed

Myself and friends are so happy it is smoke free a healthier environment for all. Please do not go back.

Husband smokes / I don't Have smoke areas. Potowotami area is to tight ! Older machines, make an area for smoking that is larger, good circulation and a more enjoyable area.

Changing back to allowing indoor smoking will change my casino habit. I will travel farther to play where it is smoke-free, or just will not go to the casino anymore.

They make it very uncomfortable to be in t it's very hard on people with the smokehe casino when you're gagging with the smoke

makes me not want to come at all!

Vaping doesn't smell like cigarettes. No ash trays no mess. No matches

My preference is to have smoking permitted and non-smoking indoor areas.

I only smoke cigars. But I do not like cigarette smoke. I would love a cigar lounge with gambling options. I would like to smoke freely throughout the casino, but I understand that many others do not like cigar smoke.

Do not allow smoking please

If you allow smoking you will lose 4 people that attend regularly!

Do you have any other thoughts or opinions related to smoking in casinos?

I would go to the casino more, but my wife is extremely bothered by the second hand smoke. It limits my availability to go.

Allow vaping, do not allow smoking.

Smoking is calming

Convert the old non smoking sections to smoking.

We are more apt to visit a casino that is smoke free. If you go back to smoking it will affect the amount of time we come up.

If I go to a casino and it is smokey I don't stay as long

I think that it affects others health and smokers should have a designated outdoor smoking area

No

I was a smoker 45 years

I won't go to a casino that allows smoking

No other businesses allow smoking inside why should casinos

Smoking causes the machines to be ashy and dirty and disgusting. Do not allow smoking inside.

Don't like smoking casinos

Will not visit if smoking allowed

Do you have any other thoughts or opinions related to smoking in casinos?

Smoke free casinos seem to be cleaner as well

Smoking shouldn't be allowed right outside the entrance doors either

I prefer a smoke free casino

Having a designated smoking place indoors, like you do, works for me. I don't think that non-smokers should be subjected to second hand smoke.

Smoking is smelly, unhealthy and will create the potential for lawsuits from people with breathing issues

I was so happy when they kept the non-smoking after Covid. I hate coming out of a Casino and all my clothes smell like smoke. I also get a sore throat at casinos that allow smoking.

We quit going to Potawatomi when the smoking ban took place

Ill stop going

When given the option of going to a casino, I would choose one that allowed smoking.

Do you have any other thoughts or opinions related to smoking in casinos?

Those that smoke in a casino are very inconsiderate and disrespectful.

I used to smoke cigarettes. I believe that smoking gambiling and drinking go hand in hand and people will be upset if you got rid of it

offer non smoking sections. seems pretty simple to me

No

No smoking permitted

Make areas for smokers, then other areas for non-smokers.

I understand there may be business reasons to allow smoking but then have smoke areas and rest smokefree

As long as it's well ventilated it should be fine but you're always going to get the people that complain about something no matter what.

The area outside the front entrance where people smoke, the area outside the doors to Solstice on the second level and even the area where the elevator doors open, all reek from cigarette smoke. Even the people leaving the Solstice reek from smoke which is worse when they leave Solstice, go to a non-smoking area and sit next to you.

When I have to time for Yes !!!

smoke smells bad and i can't breath

Smoking/vaping should never be allowed. I used to smoke until the day I had my stroke.

Maybe, making smoking gaming room would be fine.

Do you have any other thoughts or opinions related to smoking in casinos?

It's on to have a smoking section in a separate area

Please do not allow smoking indoors. Thank you!

HAVE SMOKING ROOMS IN SIDE OR DIVIDE PLAYING AREAS

Second hand smoke is bad. And someone next to you smoking is terrible and is irritating and then your clothes smell from smoke and your hair it is a nasty smell

More light lol

Have smoking sections

health is the main reason to keep the non smoking environment

What is your gender? 8,517
